For the purpose of paying the principal and interest on all such debt, the County Council shall continue to assess and collect front footage benefit assessments and connection charges against all real property in each of the respective service areas existing at the time of the abolishment as necessary to retire the bonds which were issued for the benefit of such service area. The County Council may provide, by resolution, for any such additional provisions as may be necessary to affect the assumption of said debt and the payment of the principal and interest on said debt. Such revenues shall be credited to a separate enterprise fund as directed by the County Council.
- I. Pending matters. The County Council may continue all matters which were pending before the Sanitary District and the Sanitary Commission as of the effective date of the abolishment, and if continued, the County Council shall direct the completion of such matters by the Department.
- J. Employees. All employees of the Sanitary District employed on the effective date of the abolishment shall become employees of the County Council. The salary level, retirement benefit, insurance benefit, seniority level, and other vested employee benefits of each of such employees shall not be reduced upon the transfer to County employment, but each such employee shall be subject in all other aspects to the personnel rules and regulations of the County. Any employee described in this subsection may continue to participate as a member of the State Employees' Pension System only if the employee is employed in an eligible position with a participating employer as defined under Md.
